

**CNSC/Industrial Radiography Working Group Meeting**  
**January 12, 2010**  
**Ottawa, Ontario**

**Attendees**

Tom Levey (Acuren)  
Alan Brady (TISI)  
Peter Fundarek (CNSC)  
Karen Mayer (CNSC)  
François Rodier (Labcan)

André Regimbald (CNSC)  
Henry Rabski (CNSC)  
Rick Debruyne (Aztec Inspection)  
Peter Larkin (CNSC)  
Eric Fortier (CNSC)

**Absent**

Joel Kish (Inspectrum)  
Chris Spencer (Spencer Manufacturing)

**Chair of the Meeting**

Henry Rabski

**Co-Chair**

Alan Brady

**10(RWG-01) COMMENCEMENT OF THE MEETING**

Meeting started at 8:00 am with André Regimbald, Director General of the Directorate of Nuclear Substance Regulation welcoming those in attendance.

**10(RWG-01) 1.0 REVIEW OF LAST MEETING'S ACTION LIST AND MINUTES**

The minutes are approved in substance subject to minor editorial changes.

We then reviewed the action list

**09 (RWG-10) 2.1:** Still open

**09 (RWG-10) 2.2:** Completed.

**09 (RWG-10) 3.0:** -Priority 1A: Incident report developed by members of the industry (still open)  
-Priority 2: Members of CIRSA have reached out (letters, improved web-site) to others industrial radiography licensees to develop a network to communicate the outcomes of the working group, shares tools, encourage workers... (still open)  
-Priority 3: Closed  
-Priority 4: Closed

- Priority 5: Members of the industry are identifying all or most relevant training providers to update them on training and decisions of the working group. CIRSA is ready to post on their web-site the special forms certificate.
- Priority 6: Assigned to Transport Licensing and Strategic Support Division (TLSSD). (still open)

- 09(RWG-10) 4.0**
- Priority 1: TLSSD has assigned a subject matter expert. (Closed) The industry contacted 3 different consultants to test their interest in developing On-line TDG training. A workshop on TDG training is proposed for the annual industrial radiography outreach meeting to be held in Western Canada on May 27 or 28, 2010. (still open)
  - Priority 2: The compliance enforcement strategy (still open)
  - Priority 3: Linked to Action Item 09(W6M)3.0; priority 2 (still open)

**09(RWG-10) 5.0**

Item One: Radiography Equipment Certification

CNSC Staff looked at the outcomes/feedback of previous CNSC initiatives regarding certification of radiography exposure devices. A regulatory guide is planned to be published for consultation on this project this spring. (Action open)

**10(RWG-01) 2.0 CEDO CERTIFICATION**

A presentation by industry members was made to the group on the CEDO certification process. The full presentation is included with the minutes. The following key issues were highlighted:

1. The written exam is not current with actual regulations and standards.
2. G229 is not current.
3. Certification process is confusing and disconnected from reality.
4. Training expectations of EDO are not clear.

After the presentation, it was decided that the CEDO certification would become the priority of the group.

A project team will have to be put together to work on the redesign of the training of CEDO.

We decided that discussion on equipment and notification failure would be discussed at a later date.

### 10(RWG-01)3.0 **CNSC OUTREACH**

We discussed the possibility of having a general Industrial Radiography Meeting in Nisku on May 27 and/or 28, 2010.

Ideas for this outreach meeting are:

1. Uniformity between inspectors (communication)
2. TDG workshop
3. Process to receive feedback from radiographers/licensee (Survey to licensees)
4. Equipment

### 10 (RWG-01)4.0 **MEETING CONCLUSIONS**

The next meeting is tentatively planned to be held in Edmonton the week of March 22<sup>nd</sup>, 2010. The main subject will be building the project plan of redesigning the CEDO certification program and to have a technical meeting/demonstration regarding equipment used by radiographers.
